Subject: Volume Crime Samples

Hi Dale

Last year, we met with you and Insp Scott McLaren regarding processing of Volume Crime samples, given the discontinuation of Profiler Plus kits from Applied Biosystems. From today onwards, Volume Crime samples will be processed using PowerPlex 21, as per direction by the QPS.

My team has come up with an Options paper regarding further improvements that could be made to Volume Crime workflow and I'll forward that to you later today for your review. Paul and I would like to meet with you to discuss this paper and another item – are you able to advise when you would be available to discuss these with us?

Cheers
 Cathie
