Subject: RE: DNA Profiling Kit

Afternoon Cathie,

Thank you for your email. Apologies, I have spoken with Scott as a result of your email and our visit there in late July. We did agree to move forward as suggested to use PowerPlex21.

I hope that assists.

Kind regards,

Dale.

Subject: DNA Profiling Kit

Hi Dale

I'm following up with you regarding the discussion held on the options paper regarding DNA profiling kits for Volume Crime samples. During the meeting, we discussed the various options available, but all appeared to agree that processing Volume Crime samples with PowerPlex 21 (PP21) was the best option moving forward. Insp McLaren advised that he would discuss the options with you and provide advice. To date, we haven't received any advice and as we need to change our processes and request enhancements with the FR, could you please provide me with the option that the QPS would like us to progress.

Cheers
Cathie

Cathie Allen
