Hi Luke,

Yes please.

Thanks,
Paula

Hi Paula
Ok all good. Do you want me to log it with that start date?
Thanks
Luke

Hi Luke,

This change still needs to be communicated to staff first, before we can 'go live' with the process. Can we submit a request, to have the start date of maybe Monday 12th? (if programming is simple, which I think it may given it's already in place for P3)?

Thoughts?

Thanks,
Paula

Hi Paula
Is JAH logging an enhancement for Quant transition or do you want me to?
Thanks
Luke

Subject: Microcon Options Paper

Hi Everyone

On Friday, Paul Csoban and I met with the Superintendent of Forensic Services Group, Dale Frieberg and other QPS officers that the Supt requested to attend. We discussed the Options Paper attached, which I had provided to the Supt earlier in the week. The Supt has indicated verbally and by email that the QPS' preferred option is Option 2 – no automatic concentration of Priority 1 or Priority 2 samples.

If you have any questions regarding this, please don't hesitate to send me an email or come and have a chat with me.

Cheers
Cathie
