Hi Paula & Justin

Lara Keller, A/EDFSS, verbally confirmed that she spoke with Supt McNab and advised that we wouldn't be issuing the document yet. Supt McNab confirmed that he understood this. Lara advised me that she will advise when this can be issued.

Cheers
Cathie

Hi Justin

Please don't raise it as a project just yet, but yes, we should have the data tech reviewed.

Cheers

Hi, yes I think I will ask AI.

I should raise as a Project #. Looking at values post 3500 implementation was something tasked to me and Allan and this data includes 3500 data.

Hi Paula

Good point regarding a tech review – I would support this being done. Justin – are you able to organise a tech review of the data please?

Cheers

Hi Cathie,

I wonder if it would be good to get the data tech reviewed, as we do with other projects?

I understand this would add some time to getting the briefing completed though.

Thanks,
 Paula

Hi Justin & Paula

Can you please review and track changes on the attached? I've kept it really short to be succinct.
