From: Paula Brisotto < Sent: Thursday, 23 July 2020 10:58 AM To: Kylie Rika < Allan McNevin < Subject: RE: Data Analysis Report Hi Kylie,

The timeframe given in the original email was COB 22 July. Can you please let Allan know when you expect to have your full feedback back to the project team?

Thanks, Paula

I haven't given all my feedback yet (see yellow bit below). How long do I have again? Thanks Kylie From: Kylie Rika Sent: Friday, 3 July 2020 12:03 PM To: Paula Brisotto Savage Matthew Hunt Kylie From: Paula Brisotto Savage Matthew Hunt Kylie Rika Sent: Friday, 3 July 2020 11:45 AM To: Kylie Rika Subject: RE: Data Analysis Report Hi Kylie, I would agree that this was a lot of work, however as this data assessment was not part of #181, I would prefer this to remain separate as it has not been completed and was not part of #181, I would prefer this to remain separate as it has not been completed and was not part of the project discussions. There was still a significant amount of work to do on this document. If it were to proceed to completion, I would expect it to be a standalone document separate from the project work. Thanks, Paula	From: Kylie Rika <

Hi all

This is just one part of my feedback. Mid 2017, Paula, Matt, Luke and I did a lot of work looking into a set of samples. This body of work should be included somewhere I think as it captures a lot of thoughts that went into the subsequent actions.

Thanks Kylie

Thanks Paula

I think the report is fine. I have added some more feedback in purple. For the purposes of this data analysis – and its scope, the report is fine. I am still curious as to why we are having a small set of samples where we are seeing 0sp to 2+sp. This difference is too big (even though it only relates to a small number of samples).

Perhaps we need something in the report to highlight this and what we seek to do to investigate??

Nice work Paula 😳

thanks

From: Paula Brisotto Sent: Tuesday, 30 May 2017 11:38 AM To: Kylie Rika; Luke Ryan; Matthew Hunt Subject: Data Analysis Report Hi all,

As per our discussions, please find attached an updated draft of this report. Based on feedback, we are looking at a different approach where the report will go into further detail around the data in the results section.

I have taken the feedback I have received so far, and put it in the updated draft report. Please note I have only had a preliminary read over this (as I have been in FR training most of yesterday and this morning), and some of the wording needs to change and some paragraphs rearranged to make the document flow. It's a work in progress \bigcirc

I have attached both the word doc and the spreadsheet, in case you need to refer back to the spreadsheet.

Thanks, Paula

Paula Brisotto
