Hi Paul

Yes, Douglas was aware of the change in process in 2010 to the current process that he'd reviewed and has attempted to add that in succinctly.

Cheers
Cathie

Hi Jade,

Yes this is the report

Please see last paragraph on page one – specified that the process was changed in July 2010 and that this is the process he is reviewing – Cathie is this correct?

Paul

Hi there

Is this the full report?

How long will the update be regarding the previous period 2008/2010- August 2016.

With Thanks

Jade

Hi All,

Please find attached the report from ESR.

You will note that they specify the process as starting from 2010 with notated comments on minor changes

I can also advise that the 1st stage of Project 181 is complete and confirms the current process is fit for purpose and the methodology is scientifically sound. A written report will shortly be provided

Please contact me for any further explanations

Regards
Paul
