Hi Cathie, Option 2 has P1 proceeding with auto-mic.

Perhaps that point isn't crystal clear in the doc as 'a.' has two sentences where the second sentence has scientists order manually for other samples if wanting to rework.

Pto fix, please retract, add 'b.' before second sentence and re-send.

JAH

**Subject:** Microcon Options Paper

Hi Everyone

On Friday, Paul Csoban and I met with the Superintendent of Forensic Services Group, Dale Frieberg and other QPS officers that the Supt requested to attend. We discussed the Options Paper attached, which I had provided to the Supt earlier in the week. The Supt has indicated verbally and by email that the QPS' preferred option is Option 2 – no automatic concentration of Priority 1 or Priority 2 samples.

If you have any questions regarding this, please don't hesitate to send me an email or come and have a chat with me.

Cheers

Cathie
