Subject: Process re: Reworks on reported mixtures

Importance: High

Hi Justin

John Doherty has requested that I implement a process where any reported sample is not reworked without my authorisation, so that this issue is not encountered again. This is effective immediately.

So staff need to be aware that once a result is peer reviewed, then reworking shouldn't be an option – Major Crime.

I'll need to discuss the finer points regarding Major and Volume with John when I get a chance.

Cheers
Cathie
